

INTRODUCING

POLYLAST **TR**

Torque Rods

by  **ATRO**®

ATRO® Engineered Systems, Inc. is molding the future with innovations for heavy duty truck and trailer polyurethane components but we haven't lost sight of our roots. That's why we are proud to introduce our **PolyLast TR** line of torque rods. No matter which style you choose, the new **PolyLast TR** product family offers you the freedom and convenience to have the torque rod you need - when you need it.

 OE Replacement Torque Rods... the newest addition to the **PolyLast TR** line, these rods are direct OE replacements, on your shelf and ready to go. OE's include Freightliner, International, Kenworth, Mack, Peterbilt and Volvo. *(see chart on reverse side)*

NEW!

 Two Piece Torque Rods... allow you to maintain a limited inventory with maximum flexibility. Match the male and female rods for any length or configuration. The ultimate in ease and convenience.

 Fixed Length Custom Torque Rods... for severe service Heavy Duty applications. These rods are built to your specifications in our factory and most rods ship within 48 hours.

 Remanufactured Torque Rods... allow you to have a non-serviceable or hard-to-find rod custom remanufactured using ATRO's proprietary polyurethane and patented design.
